

# BLOW OUT PRICES!!

## Microwave Video Transmitters

It's license free at a reasonable price for professional performance. Available immediately off the shelf (we may have some used ones)! We modify to stronger connectors and also modify receiver power connector to professional Lemo 4-pin. There is a choice of 10 externally switchable frequencies but only two Tx-Rx can be operated at a time in the same area. Good for PAL (internal switch) or NTSC. Options: Timecode burn in, etc. USA version meets FCC Part 15 requirements M9KCVR1500. Sold new for high prices:  
<http://cocom.com/pages/pro.htm>

**CVT-1400 Transmitter** video + audio 902-928 MHz, 10 channels, aluminum chassis w/ rubber duck antenna & matching connector (no cables) 11-14V only – for 24V power needs external optional 24V-12V inverter.

**CVR-1500 Diversity Receiver** Video-Audio 902-928 MHz, aluminum chassis. Automatically selects the best signal from up to three antennas. 3, 2 pole ceramic filters. Supplied with 110V-12V DC power supply and manual. (Antennas & cables not included.) It is best to use this diversity receiver for moving transmitter applications. **This receiver makes this a broadcast quality video link for mobile applications.** CoCom pricelist <http://cocom.com/pdf/Pro-Price-List-Verticle.pdf>

### 7" PORTABLE LCD TV

LCD receives signals from 900 MHz transmitters and broadcast TV stations, daylight viewable, NTSC: VHF, UHF, CATV, wide viewing angle, 3/8th Baby pin mount, No video out, 16:9 not anamorphic, powers up on same channel as powered down, Li-Ion NP-1 Battery lasts 6+ hours attached in rear. Monitor has protective custom screen cover on LCD. Monitor alone with protective custom screen cover on LCD, Bracket with soft squishy handles. Single antenna tuner for

900MHz in rear.
